

PLANT SPECIES OPTIONS

Acorus gramineus 'Ogon' -
Sweet Flag

Ophiopogon japonicus -
Mondo Grass

Species planted underneath the sculpture shall exhibit the following qualities:
1. evergreen 2. non-brittle 3. compatible with site soils 4. tolerates full sun

Sweet flag and mondo grass are shown as the preferred City sculpture planting alternatives. However, if Park & Rec has other suggestions that may be more appropriate for this condition, CMG landscape architecture would like to take those options into consideration before finalizing the planting plan.
